

FACTSHEET

Astro Pharma is a family-run Austrian pharmaceutical company founded in 2004 by Dr. Sabine Möritz-Kaisergruber and Helmut Kaisergruber. Since then the team has grown steadily. Since then, the team and our partner companies have grown steadily. We currently work with more than 10 partner companies from 9 countries.

We focus on affordable and innovative biosimilar products as well as niche products essential for the healthcare system of the future. We act as general agents for international pharmaceutical companies in Austria. We also distribute our own products such as antibiotics and vaccines.

We combine our international network with in-depth expertise in the local market, thus equipping us for any challenge. With our proprietary distribution system and customized solutions, we offer exceptional service. As co-founders of the Austrian Biosimilars Association (BIVÖ), we advocate for a sustainable framework for biosimilars.

PRODUCTS

Our product portfolio includes antibiotics, vaccines, IVF, and oncology products. We are a leader in the field of biosimilars and have over 10 years of experience. All our products are manufactured by established and experienced partner companies.

PARTNER COMPANIES

We market, among others:

- Biosimilars from the South Korean biopharmaceutical company Celltrion Healthcare
- A therapeutically important antibiotic from the German pharmaceutical company InfectoPharm
- Iron infusions from the Danish company Pharmacosmos
- Vaccines from GlaxoSmithKline Biologicals S.A. (GSK) as well as AJ Vaccines A/S
